 - A. Jenny has seen 43 of the 111 schools and is on track to finish up. Her per school fee has been increased to \$250 per school and a new contract is in place. Coalition members were encouraged to get on the calendar and go see one of her presentations when she is in your city.

3. Discussion about Stormwater Awareness Study. Glen has received 4 cities random addresses and has asked that the rest of the cities get their random addresses to him by March 1. The number of addresses each city needs to submit was included in the email with the November minutes.

4. Annual Stormwater Training will be held on **Tuesday, March 22, 2016** at the Utah County Health & Justice Building. Breakfast will be offered. Discussion was held about ideas for trainings. Ideas for sessions included: Low Impact Development during the development process, Rhonda Thiele discussing New Permit Requirements – she has confirmed to present, SWPPP Development/NOT for Contractors, Good Housekeeping for Municipalities, Common Plan of Development, UDOT and MS4 what is the city's role?

This would allow for 6 breakout sessions – 2 for each hour of the training. We are thinking of extending the training to last from 8am to 11am to accommodate everything. There was some discussion of partnering with an entity that would allow CEUs for the contractors which seems to be a big push for attendance with them.

Glen will do some checking into having an RSR training offered at the Courthouse that day as well.
