“Used oil” is motor oil, hydraulic oil (such as brake fluid), and transmission fluids. These substances may be mixed for recycling.  
DO NOT MIX ANTIFREEZE WITH USED OIL. It must be recycled separately.

Collection centers cannot accept solvents, parts cleaner, gasoline, diesel fuel or oil that has been contaminated by water or other products.  
Call 801-851-7525 for information on disposing or recycling products other than used oil.
